- Sports Equipment resource order for Key Stage 2.
- Footballs, Basketballs, Netballs, Badminton Rackets, Shuttlecocks- £250
- Leon Baptiste/Paul Sturgess visits – inspirational sporting role models

The Impact of the support

- Specialist PE teachers and Sports Coaches ensure that all children from Years 1-6 have the opportunity to be taught a range of sports, skills and techniques in order to demonstrate in a game situation. They are also able to guide students during sports fixtures and encourage children to take part in before, during and after school clubs
- A wide range of lunchtime and after school clubs ensure that even more children engage in physical activity to promote well-being across both Key Stage 1 and 2. Key stage 2 currently has four before school, five lunchtime and 5 after school sports activities that the students can choose from.

- The membership of the Bedford Borough Sports Partnership allow our children the opportunity to take part in sports competitions against children from different schools. This opportunity provides a great competitive factor for our students and the chance to showcase and challenge their talents against other likeminded students. These festivals are run every term and allow students in Key Stage 1 and 2 to compete in a variety of activities. These include: Tag Rugby, Orienteering, Goalball, Sports hall Athletics, Outdoor Athletics, Dance, Uni-Hoc, Rounders, Football and Cricket.
- Annual Health & Fitness week gives children access to a wider range of alternative sports and activities to engage in. This keeps the students active and highlights ways that they can eat healthily as well.
- Cambridge PE Planning scheme was purchased and shared with all teaching staff in staff training and PE specialist Ian Roberts came to deliver the training. Teaching staff use new planning to support the delivery of PE across the school in line with N.C requirements and up to date PE teaching and learning.
- Year 4 children attended additional swimming lessons and all improved their swimming skills towards achieving the 25m requirement for end of KS2.

PE Grant Expenditure 2017-2018

Ongoing

- Equipment purchased and having impact in PE lessons observed through monitoring and progress. Year 2 pupils won the multi skills competitions and Year 1 pupils came in first place at several festival sporting activities. Teacher feedback re year on year improvement in skills due to basic moves. This has contributed to children placing higher in competitions.
- The opportunity and awareness of physical education, sport and physical activity has improved and there are more opportunities for children to be active. These are widely shared on social media and through the weekly newsletter to involve the wider community.
- Wake Up, Shake Up has increased the children's physical activity levels during the day as each class participates in a daily session of Wake Up, Shake Up.
- Sending members of staff on the Midas Minibus Course allows the school the opportunity of competing in more out of school fixtures and also sending more than one squad of students out at one time. The students having exposure to fixtures (against other schools) is paramount for their sporting development. This provides the students with an opportunity to experience the joys of winning, but also learning how to lose and draw in the right manner.
- We have also sent members of staff out to First Aid Courses so that our students can gain quality care during fixtures and during PE lessons. This can be invaluable in moments of crisis.
- Providing the students with new sporting equipment can encourage them to use it correctly and can also increase students passion in a sport.
