

DANGER ZONE!

Our topic this term is **DANGER ZONE** where we will be enjoying some exciting, educational yet highly dangerous experiences. This will range from learning about the dangers of electricity, to extreme climates, natural disasters and include many other shocking surprises.

LITERACY

In **Literacy** we will be reading a range of texts looking at why the author has made certain choices. We will be writing a wide range of genres including creation myths, fantasy stories and non-fiction reports.

MATHS

Our focus for **Maths** this term will be fractions and decimals, measures and time. Alongside this we will revise our knowledge of number, place value and the four operations.

In **Science**, we will be learning about electricity and then using this knowledge to support us when making circuits in **DT**. We will also be learning about states of matter to link with extreme weather.

In **Geography**, we will be learning about weather and natural disasters. This will complement our work in **RE** where we will be learning about what religions teach us about the natural world.

In **Art**, we will use Hokusai's wave as inspiration for our own paintings and sculptures. Our knowledge of weather will be vital when becoming meteorologists in **Computing**.

In **PSHCE**, our topics will be *Going for Goals and Good to be Me*. In **PE**, we will be creating dances inspired by some of the amazing things we have learnt. We will also be swimming.
