

Do you know a lot about technology?

Are you a whizz at computing?

You could be one of our first Digital Leaders!

Digital Leaders are children that have been chosen by their class peers for their knowledge and skills that they have shown in ICT.

As a Digital Leader, you will be pivotal in the delivery and success of the ICT curriculum throughout school. You will have fortnightly meetings, receive training and development to improve your ICT skills and also hold each class' responsibility for looking after the equipment we have in school. You will show children how the equipment is to be looked after and will do regular checks on the equipment to ensure that it is not broken.

If you would like to be one of the first Digital Leaders at Scott Primary School, then you need to create a speech about why you would be perfect for the job.

You have until the first week back in January when the elections will take place.

I look forward to seeing who our first Digital Leaders are!

Mrs Worrall
